

M MOPIC

**GLASSES-FREE
3D VIDEO ON ANY
SMARTPHONE OR TABLET**

JAW DROPPING 3D WITHOUT GLASSES

3D glasses are inconvenient and uncomfortable. With Snap 3D Cases, there's no need for funny looking headgear. Paired with our Snap 3D Case, MOPIC's proprietary 3D Engine tracks your irises and adjusts the image up to 30 times per second. This lets us show your left and right eyes exactly what they should see with 95% accuracy.

INSTANT 3D ON ANY PHONE

MOPIC instantly brings your phone or tablet to life. 3D content pops off the screen. Clip a Snap 3D Case to the front of your phone. Install the M Player 3D app and you're ready to go. the 3D effect is just as prominent and perceptible as 3D at the cinema, and calibrating your phone takes just seconds.

MOBILE 3D FOR ALL

MOPIC's affordable Snap 3D Case will retail for \$25 and up, which is about the same price as an ordinary protective case. They're designed to flip around and cover the back of the phone when not in use.

PATENTED TECHNOLOGY

We layer about 1,000 convex lenses over a 5-inch smartphone screen, splitting the image between your left and right eye. It's similar to holographic postcards that show different images, depending on how you look at them. Paired with our M player 3D app, this brings moving 3D images to life.

APPLICATIONS

You can already experience MOPIC 3D by playing 3D movies using our M Player 3D app. We're opening talks with content creators who will incorporate our technology into their own players soon.

- ❖ Movies
- ❖ Animation
- ❖ Video Games
- ❖ Adult Entertainment
- ❖ In-car Navigation
- ❖ 3D Mapping
- ❖ Augmented Reality
